Subject: Earthquakes and heat waves

Follow Up Flag: Follow up
Flag Status: Flagged

Despite a fairly major earthquake and searing summer heat on the Greek island of Lesbos, GEM's summer teams continue to minister to the many refugees literally stranded there. **Pray** that the volunteers care and commitment would show the love of Christ and provide opportunities to share.

Praise for the team that was in Berlin which shared the Gospel with many. **Pray** for the follow up of those contacts.

As Amir still awaits an official decision on his asylum status in Germany, he continues to minister to others. **Please continue to pray** for him. He is in need again of a safe place to live and also room where he can disciple new believers.

Please pray for a new Muslim background believer we wrote about. A friend shared the Gospel with him in Greece. We connected him with a colleague in Germany who is discipling him. He has permission to bring his family from Syria, but they still face difficulties getting out. **Pray** that the family could be reunited.

In His service, Bob and Janie
